- Use gem elixirs as internal remedies & topical treatments
- Incorporate vibrational gem treatments into bodywork sessions
- Combine gem elixirs with flower essences for high octave remedies

- Sense frequencies via colored light refraction in natural objects such as crystals/ opals/ mother-of-pearl.
- Discern gemstone frequencies & use these frequencies combined with your intention as light codes to infuse these vibrations into your environment.
- Connect to your *true essence* to shower yourself with colors/ tones/ frequencies your body needs.

“The information presented in this course is research distilled through twelve years as a flower essence/ gem elixir practitioner. The new topical treatments for gemstone elixirs were developed through twelve years of research into colored light, gem elixirs, and the application of vibrational elixirs to the body, including two years using this new natural method of colored light projection with group colored light, gem & flower essence clinics. The acupuncture application methods were developed in conjunction with **Warren Bellows Lic. Ac.** co-author of our book-
